- **Transferable:**

Numismatic Disadvantages

- **3-5 years to Appreciate:**
 - We suggest you hold your coins for 3-5 years to give them a chance to appreciate
- **When you want to liquidate DO NOT take them to a coin dealer:**
 - Dealers want to buy inventory for the lowest price possible to be able to resale for profit
 - When you are ready to liquidate your portfolio the best way is through an auction

You have the dealer there, the investor there, the collectors there

You'll realize your greatest profits at an auction

***If you are looking to liquidate, for whatever reason, please contact us.
We can help walk you through the process and advise on how to proceed***

The Economist

An index of tangible alternative asset classes compiled by Knight Frank, a consultancy, shows that returns in rare coins over 10 years to the end of 2016 were **195%**

Easily beating:

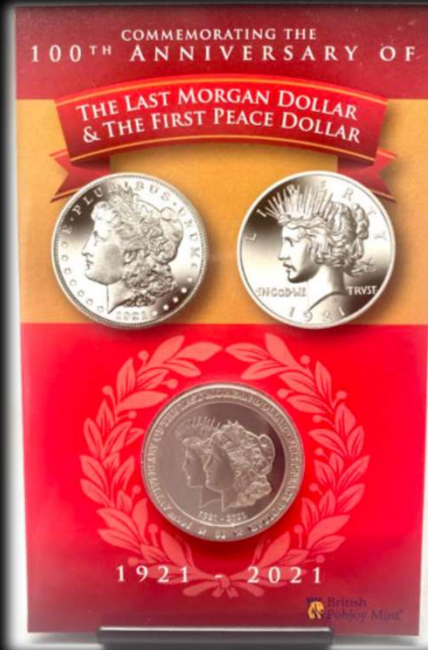

- art (139%)
- stamps (133%)
- furniture (-31%)
- 500 index (58%)

Coins are more portable than paintings or furniture and boast a higher value-to-volume ratio. Stamps may be lighter, but, come doomsday, cannot be melted down.
